### Printer Control

Not Silenced

Status of NewsLabel: **RUNNING** Start Stop

NewsLabel Links to Printer (Serial and Parallel): **CONNECTED** Connect Disconnect

State of the Printhead: **READY** Ready Standby Down Clean

When the printer changes to Ready, a test label is sent.  
Look at the printer's data light to ensure that it is on.  
Note: The light may go out after five seconds. This is normal and correct.

Tweak: Print settings: Offset 18 Sector 0

Lamp Indicators: ADD REPLENISHER, ADD INK, ERROR, DATA READY, TACH, CUE, POWER

Control printer functions from within NEWSCOM®

NEWSLABEL may require additional optional hardware components. If needed, these additional components will be identified on your NEWSLABEL proposal.
